

### Why This Matters

Internal control deficiencies in programs and processes could lead to misstatements in Department of Homeland Security (DHS) financial statements. Also, these deficiencies could impair effective monitoring and execution of Federal programs.

## National Flood Insurance Program's Management Letter for FY 2013 DHS Financial Statements Audit

### What We Determined

KPMG LLP reviewed National Flood Insurance Program's (NFIP) internal control over financial reporting. The management letter contains 4 observations and 12 recommendations related to internal control and other operational matters for management's consideration. KPMG LLP noted deficiencies and the need for improvement in certain NFIP processes. These deficiencies did not meet the criteria to be reported in the Independent Auditors' Report on DHS' FY 2013 Financial Statements and Internal Control over Financial Reporting, dated December 11, 2013, included in the DHS FY 2013 Agency Financial Report. These observations are intended to improve internal control or result in other operating efficiencies. We do not require management's response to the recommendations.
